BIKE BUILD

Challenge

BUILD BIKES WHILE YOU BUILD YOUR TEAM!

TEAMBUILDING ROI has spiced up the traditional bike build challenge with a mash-up or competition and fun!

The goal is to be the first team to complete a bike. Starting with just a frame, each team competes in classic TBROI mini-team building challenges to win its other components, including a handlebar, seat, fork, gears, cranks, pedals, chain, wheels, and grips.

Teams can add components to their bikes at any time. Our bike mechanic will make sure each team has correctly assembled its bike and will give advice when needed. The first team to correctly assemble a safe and working bike wins the challenge.

Ask us about presenting your completed bikes to the charities of your choice at the end of the event. This event is rewarding, competitive, and fun way for your team to give back to your community.
